

Infrared heating system

HELIOS ELECTRIC INFRARED WATERPROOF IP54 with the coupling system JOLLY TRIS to be installed under parasols.

Waterproof IP 54 and the coupling system JOLLY TRIS can be fixed under parasols with round or square poles.

Extremely simple and easy to use, since it can be fitted and removed easily. It can be fixed at the wished height.

JOLLY TRIS can be coupled on:

a round pole with a diameter from 4 cm to 14 cm.

a square pole with a side of a maximum length of 10 cm.

Shipments on pallets

One pallet can contain:

n. 39 Wp1 with electric cable

n. 13 coupling systems Jolly Tris with a waterproof distributing box.

The coupling system JOLLY TRIS is manufactured in steel, polyester bake painted. It has four adjustable fixing knobs.

White RAL 9010 is the standard colour; it is possible to have other colours on request and for quantities.
